

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

Some of us have an auditory processing disorder.

You have heard information from a source other than yourself.

If you can imagine it, you can achieve it. If you can dream it, you can imagine is everything real.

Become an inspiration to others.

Become a thought leader in your industry. Learn about how to become a millionaire.

Those thoughts trigger feelings, and based on those feeling we engage in behaviors which in turn impact the situation

Postures, movements, nonverbal, and verbal behavior- all can be observed.

Behavioral observation is the systematic recording of behavior by an external observed.

The result of something called a "mental workplace," a neural network that coordinates activity across multiple regions of the brain.

Fear is the response to a perceived threat, while anxiety involves worry about a threat that has yet, or may never, happen.

Physically relax: Take a spa day, get a massage, or simply sit in a comfortable chair and relax for a few minutes.

Physical factors- age ,health,illness, pain, inflience of a substance or medication

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
